IMAGINE

Imagine everything you want to feel in a single space.

The only limit is your imagination.

And when your mind knows no more barriers, **press**.

Make it come true. See how your expectations are met
and control everything you've imagined.

What you see and what you feel. It's real.

Thrill and enjoy. It's all yours.

You control it. **You feel it**.

It's your own space, just as you imagined it.

SENSE. IMAGINE. PRESS. FEEL.

Ease of use
Functionality

Building Technology

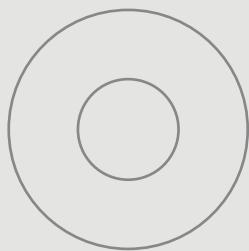

IT'S FEELINGS THAT KEEP US ALIVE

Every corner is a blank canvas waiting for you to imagine and experiment.

From this starting point, Simon has sparked its imagination to create a new concept of surroundings: the new **Sense** collection. The power of the senses inspires the first modular collection that manages to combine three concepts: touch interaction, ergonomics and integration with the surroundings.

PRESS /
COLLECTION

FLEXIBLE, MODULAR SOLUTIONS

Imagine a space, there are no limits. Choose the solution which best suits your needs. So you can achieve control and comfort at every spot.

LIGHTING

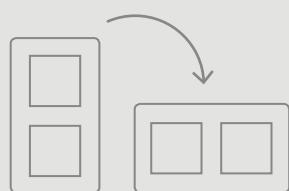

BLINDS

SOLUTIONS

In response to the needs of different spaces, flexible, modular solutions allow pieces to be fitted either horizontally or vertically.

YOUR SPACE, JUST AS YOU IMAGINED IT

Managing a space has never been easier. Just imagine what you want to see and choose from our many features. Let your imagination fly with other convenient functions for managing your own environment: activate music, security systems.

Switching on and off and dimming, as well as activating scenarios.

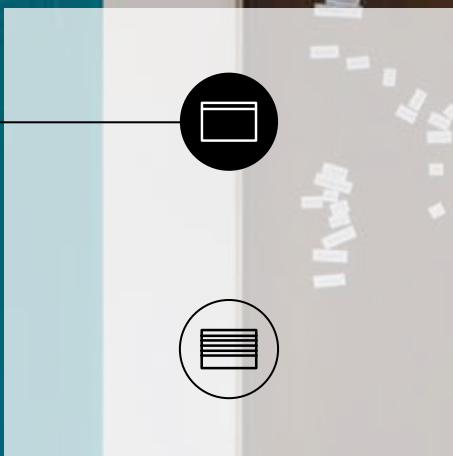

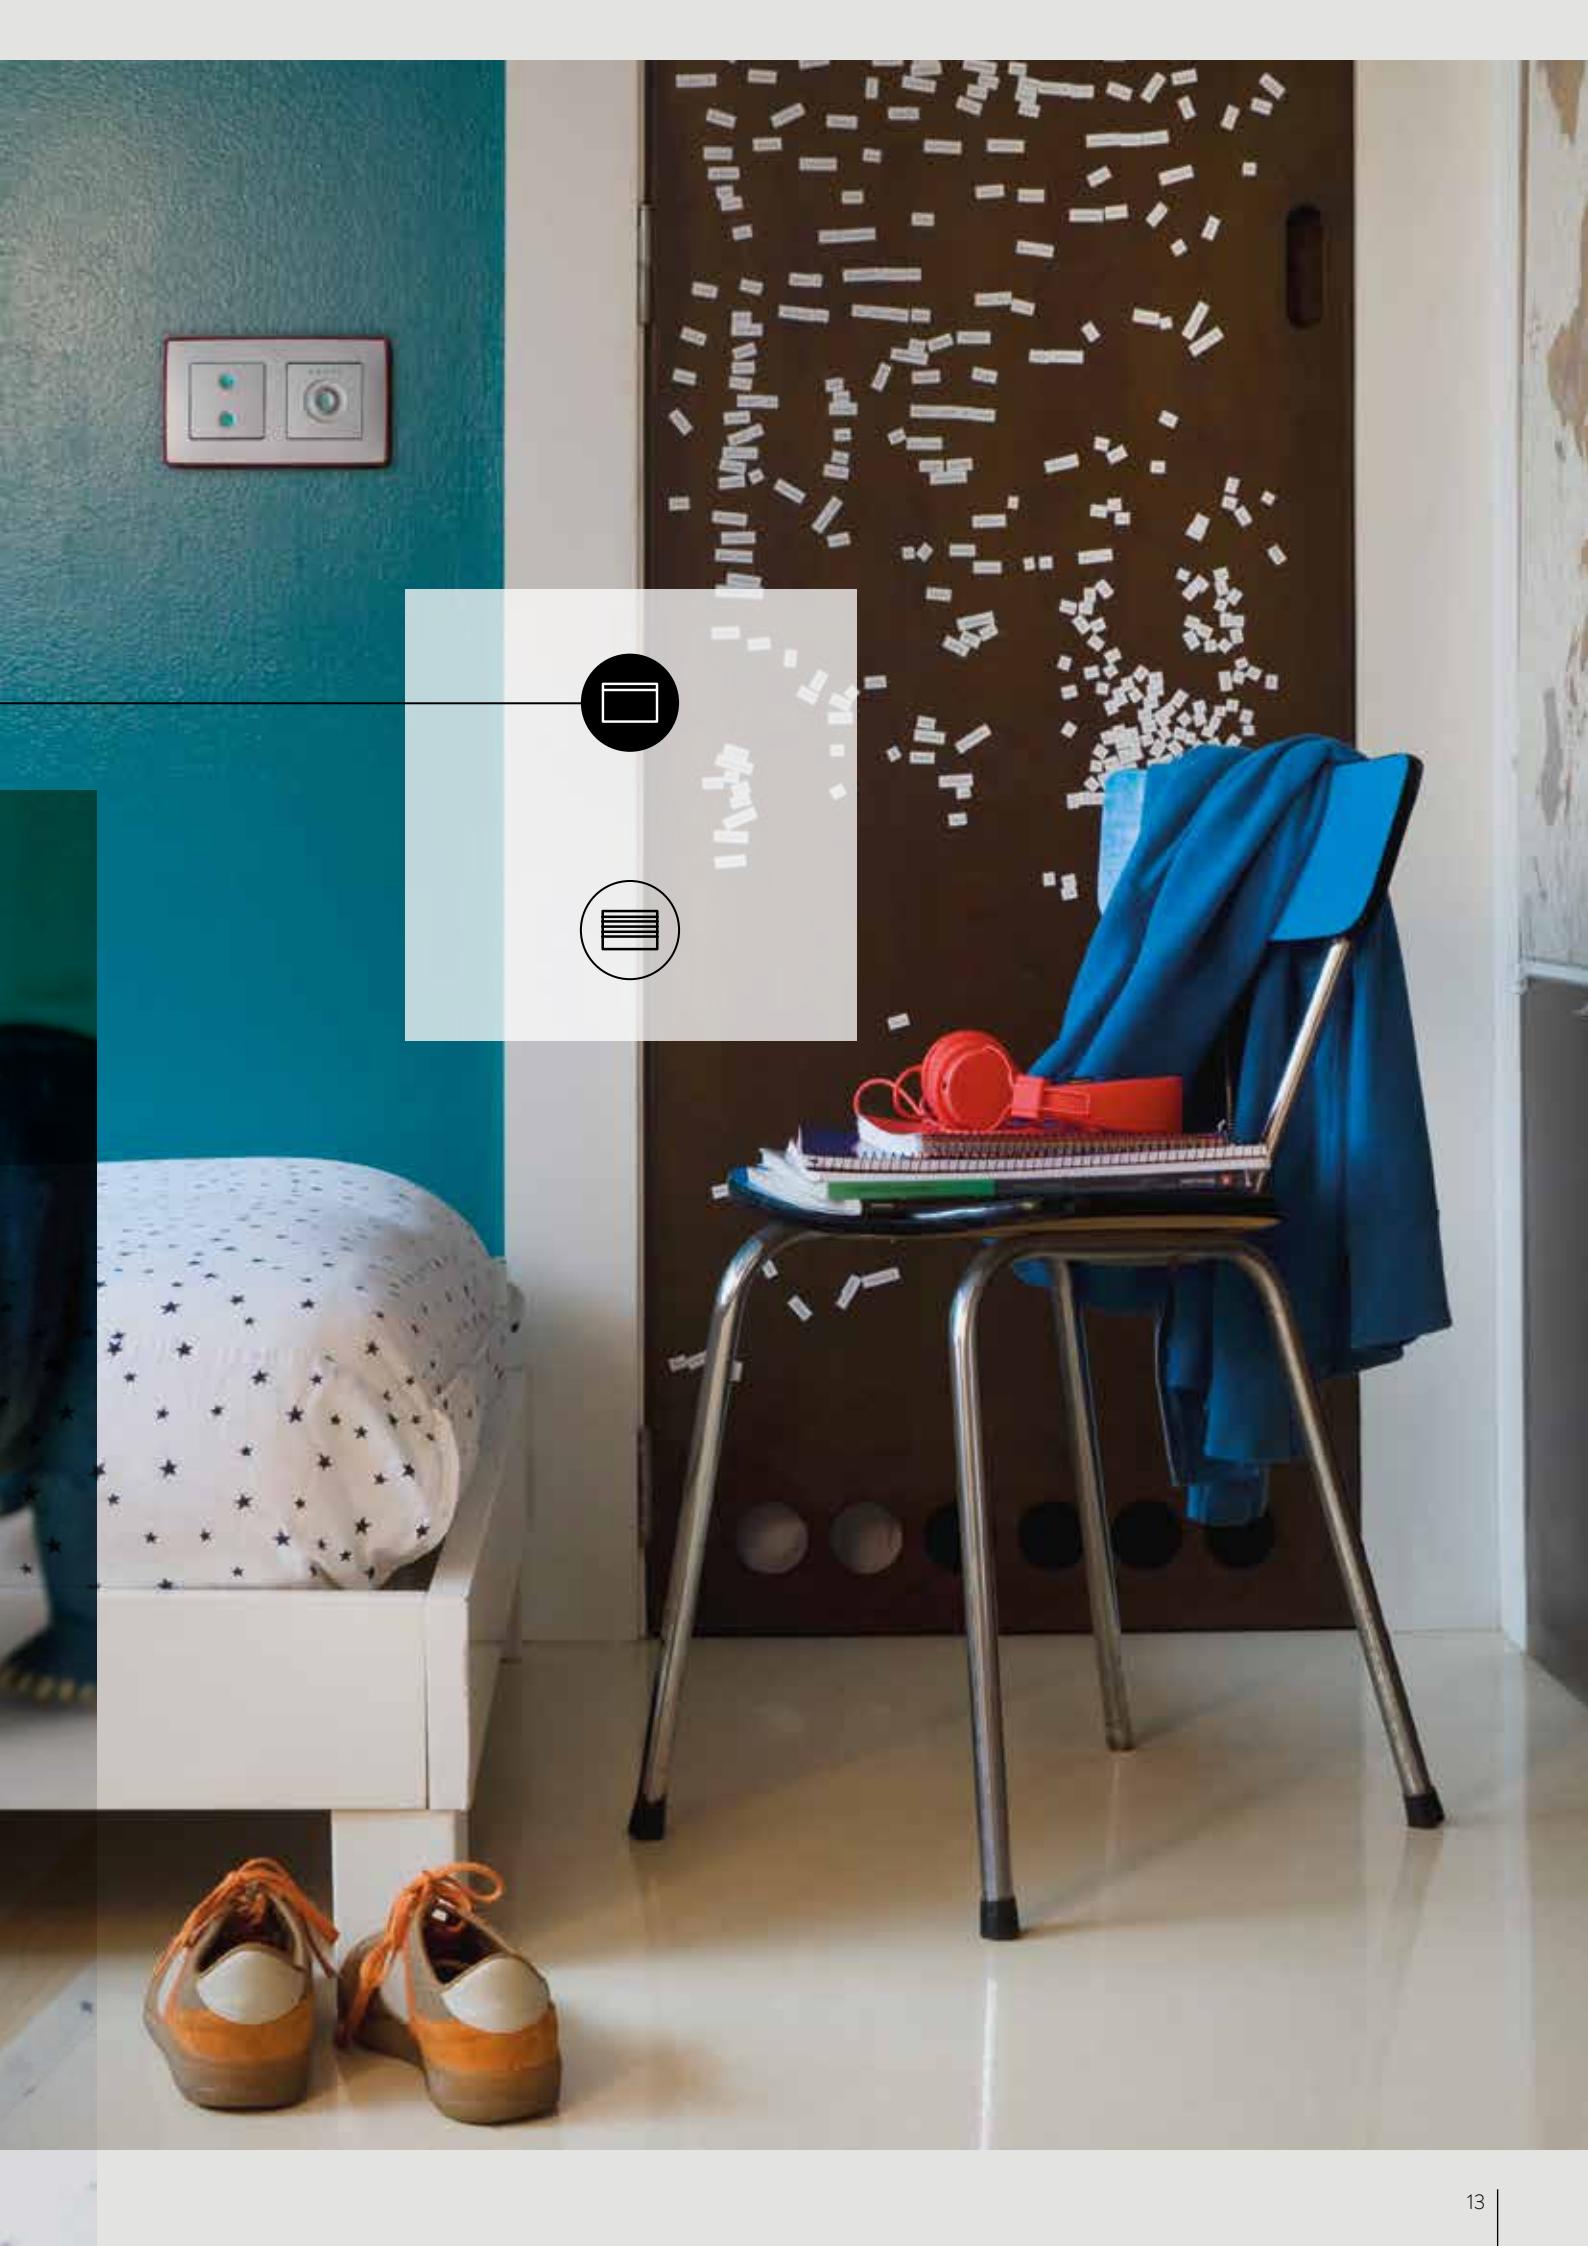

Raising and lowering of blinds, with or without slat control.

Management of climate control, operating modes, set points and ventilation.

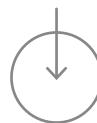

OPTIMISED ERGONOMIC INTERFACE WITH TOUCH CONTROL

When you just press or press and slide your finger, you receive a stimulus in the form of vibration or LED light. This gives any user highly intuitive control over the surroundings.

PRESS

Ideal for ON/OFF switching.

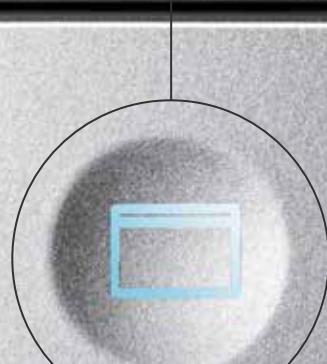

PRESS & SLIDE

Ideal for ON/OFF switching and intuitive and precise dimming using a slider control.

simon

1 TOUCH, 3 SENSATIONS

FEEDBACK

The RGB LEDs help identify functions, status of controlled loads and alarms, clearly and intuitively.

A slight vibration conveys a correct activation to the user.

User feedback powered by subtle sound.

NIGHT MODE

Self-dimming LEDs stay at their minimum level when there is nobody present. Respect for user comfort during periods of rest.

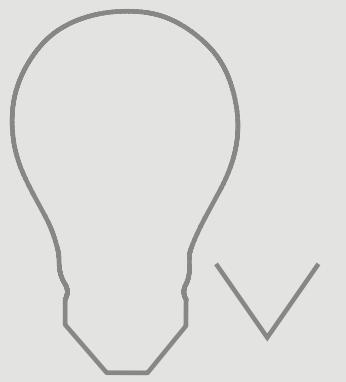

ONE CONCEPT, 2 TECHNOLOGIES

The Sense Collection supports installations based on LonWorks® and KNX for intelligent home and building management.

A single bus coupling unit for each technology allows you to interchange the front covers, so you can expand the functions without needing to modify the installation.

In addition, it incorporates a temperature probe and two digital inputs that optimise environmental control and installation resources.

FEEL /
RANGE

Sense will open up to you a range of unique components to give you the opportunity to create any space you can imagine.

Three types of solution: Regular, Custom and Personal, distinguished by their simplicity and harmony.

CREATE SPACES WITH WHATEVER SENSATION YOU LIKE

The Sense range offers a world of possibilities for you to use its many functions to personalise each room.

Available in 1 and 2 button versions;
and 4 and 6 buttons with or without a slider.

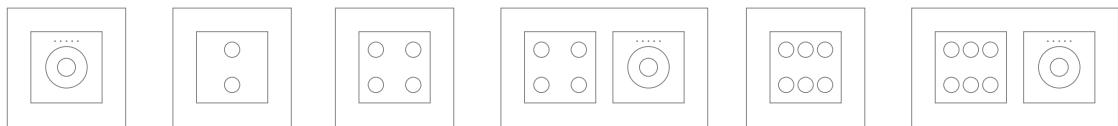

🌙 ☀ ⚡ ⚪ 🌟 🌱 🔍 🔍 1 2 3 4

REGULAR

ELEGANT AND DISCREET

A detail in the tactile zone. The simplest range and the most elegant.

...

Examples of **CUSTOM FUNCTION/ COME IN-WAIT** for offices

PERSONAL

CREATIVITY BEGINS WITH IMAGINATION

The most flexible solution for personalising every room to your taste.

The most creative option.

CREATE YOUR OWN CONFIGURATION

Lower the light intensity, turn on the music, activate a relaxing scenario...

The image shows a grid of icons used for creating custom configurations. The icons are arranged in rows and columns, with some specific icons highlighted by a circular border.

- Row 1:** A speech bubble icon (highlighted), a lightbulb icon, a lightbulb icon with a downward arrow, a lightbulb icon with an upward arrow, a lightbulb icon with a double-headed arrow, a lightbulb icon with a sunburst, a lightbulb icon with the word "LUX", and a small circle icon.
- Row 2:** A vertical arrow pointing up, a T-shaped arrow pointing right, a curved arrow pointing right, a curved arrow pointing left, a square icon, a lamp icon, a lamp icon with a downward arrow, a lamp icon with a curved arrow, a lamp icon with a double-headed arrow, and a lamp icon with a horizontal bar.
- Row 3:** A horizontal arrow pointing right, a rectangular icon, a dome-shaped icon, a rectangle icon (highlighted), a horizontal bar icon with a downward arrow, a horizontal bar icon with an upward arrow, a horizontal bar icon with a double-headed arrow, a cube icon, a triangle icon pointing up, and a triangle icon pointing down.
- Row 4:** A horizontal bar icon, a sun icon, a trash can icon, a bell icon, a guitar icon, a lightbulb icon, an air conditioning icon with "ON", an air conditioning icon with "OFF", an air conditioning icon with "A/C", and a snowflake icon.
- Row 5:** A thermometer icon, a water drop icon, a sun and asterisk icon, a plug icon, a house icon, a leaf icon, a shield icon, a four-petaled flower icon, a five-petaled flower icon, and a six-petaled flower icon.
- Row 6:** A three-petaled flower icon, an "A" icon, a thermometer icon with an upward arrow, a thermometer icon with a downward arrow, a lightbulb icon with a sunburst, an "ON" icon, an "OFF" icon, a four-petaled flower icon, a power button icon, and a speaker icon.
- Row 7:** A "zzZ" icon, an open book icon, a house icon with a person inside, a house icon with a person inside, a lock icon, an open padlock icon, a bed icon, a bathtub icon, a shower head icon, and a bar chart icon.
- Row 8:** A power button icon, a number "1", a number "2", a number "3", a number "4", a number "5", a number "6", a hand icon in a octagonal frame, a lamp icon, and a camera icon.
- Row 9:** A key icon, a musical note icon, a crescent moon icon with an asterisk, a cocktail glass icon, a coffee cup icon, a coffee cup icon with a saucer, a bottle icon, a cake icon, a tray icon, and a street lamp icon.

Choose the functions you need and then customise them using our icon library.

simon.es/sense

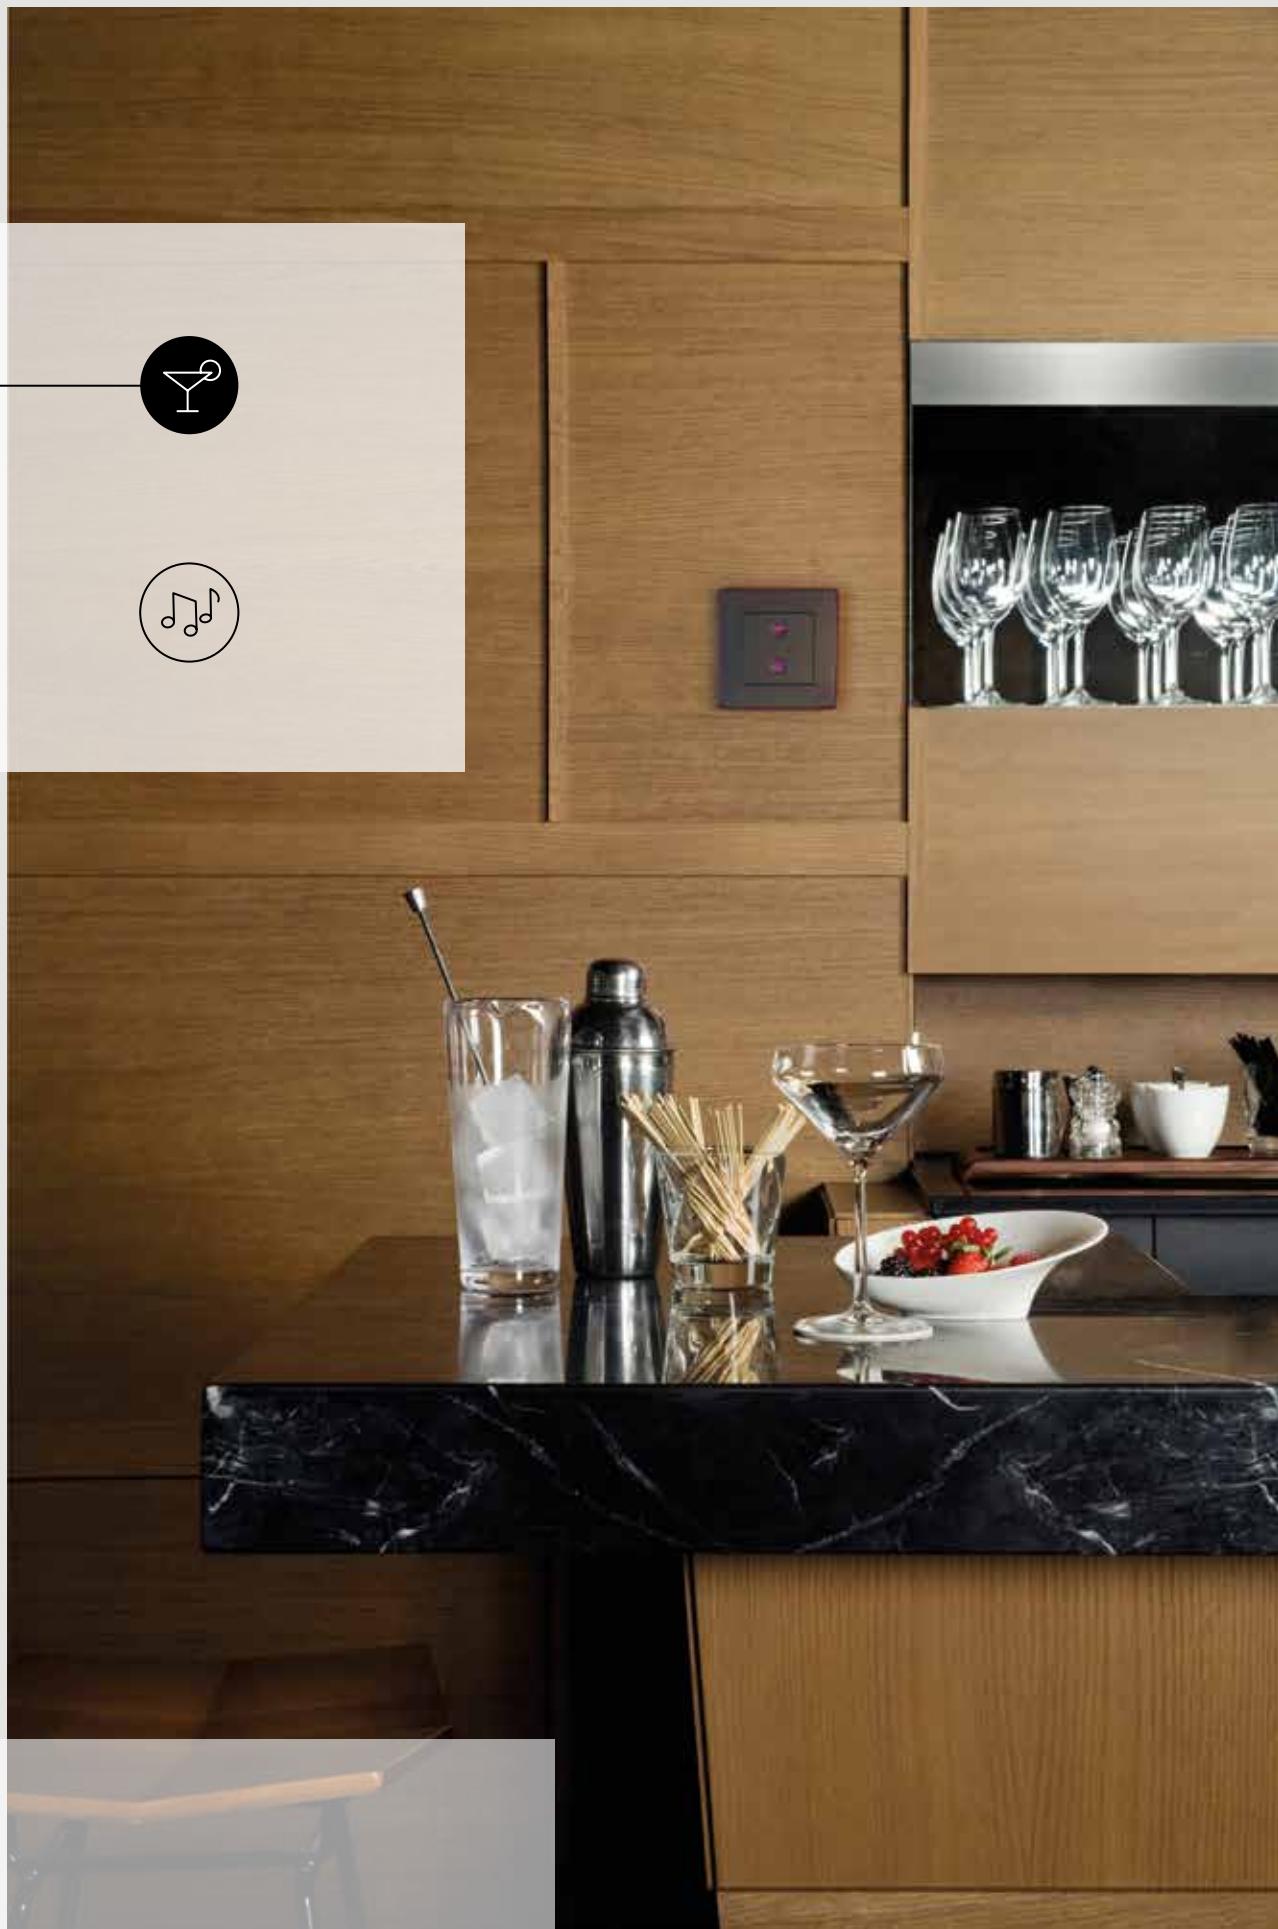

CREATE AND COMBINE YOUR OWN SPACE

Compatible with the Detail 82 and Nature 82 collections,

Sense lets you play with different colours, textures and finishes.

A choice of 3 interiors; white, graphite and aluminium, for unique personalisation of rooms.

INSTALLING THE SENSE COLLECTION IS AS EASY AS BEGINNING TO CONFIGURE IT

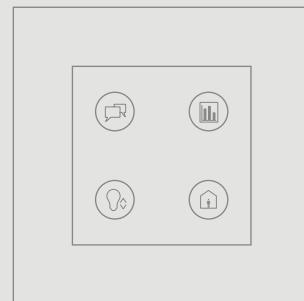

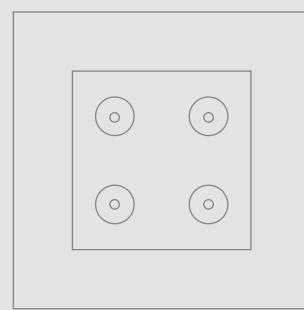

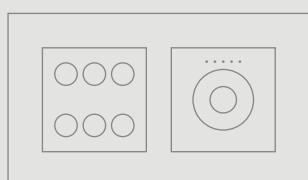

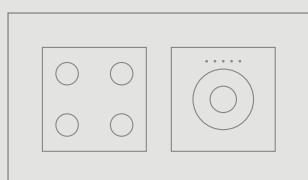

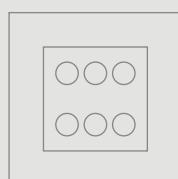

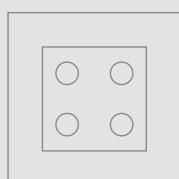

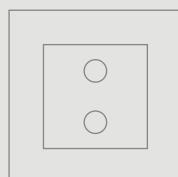

1

Choose the number
of functions

2

Choose one of three versions:
Regular, Custom or Personal.

3

Add the colour:
Graphite, aluminium or white.

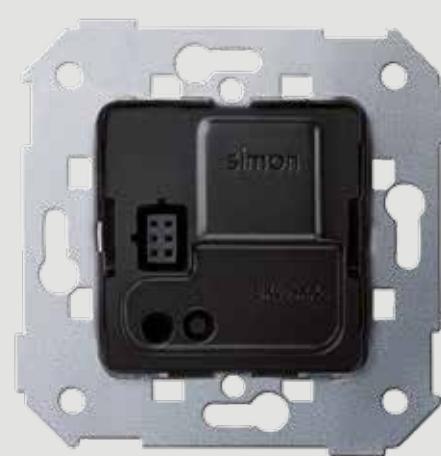

4

Choose the aesthetic you like best:
Detail 82 or Nature 82.

5

Choose a technology:
LonWorks® or KNX.

Check product references
starting from page 45.
